# Tips to Slow the Spread of COVID-19

## Protect yourself

To [prevent getting COVID-19](#) and spreading the virus to others, get vaccinated as soon as you can. Until you're fully vaccinated, always wear a mask inside public places. Stay at least 6 feet apart from people who don't live with you and who may not be vaccinated. And wash your hands frequently.

## People at high risk for severe COVID-19

People at [increased risk for severe COVID-19](#) include older adults, people who are pregnant, and people with certain medical conditions. If you or anyone else in your household is at high risk, you should take [additional precautions](#).

## Where to find information

Ask your employer how they plan to share information on COVID-19 and frequently check the [CDC website](#) for the latest information.

## Common areas in shared housing

If you're not fully vaccinated and you [live in shared housing](#), stay at least 6 feet apart in common areas from people who don't live with you and who may not be vaccinated. If you see people in areas that are small, like stairwells and elevators, consider going one at a time. Clean frequently touched surfaces.

## Recreation areas in shared housing

Consider closing [shared recreational areas](#) or restricting their capacity until you and other people in your household are fully vaccinated. Hang posters with clear safety measures to slow the spread of COVID-19. Wear a mask and wash your hands frequently.

## What to do if someone is sick

[If you're sick](#), you, your roommates, and close contacts need to self-isolate by limiting your use of shared spaces as much as possible. Eat in your room and don't share dishes, drinking glasses, cups, or eating utensils. Everyone should wear a mask in shared spaces and clean used objects and surfaces.
