COVID-19 vaccination more vital than ever

COVID-19 cases, hospitalizations, and deaths in Puerto Rico are increasing because of the highly infectious Delta variant.

All available COVID-19 vaccines are safe and highly effective against severe illness, hospitalization, and death due to COVID-19, including from the Delta variant.

Now, nearly all COVID-related hospitalizations and deaths in Puerto Rico are among the unvaccinated.

Free COVID-19 vaccines are available in Puerto Rico for everyone ages 5 and older.

Find vaccines near you:

- Go to [vaccines.gov](https://www.vaccines.gov)
- Text your ZIP code to 438829
- Call 1-800-232-0233
