STAY SAFE FROM COVID

Make sure you're up to date
with your COVID vaccines.

Even mild cases of COVID have caused damage to the lungs, heart, brain, and other organs. Young, otherwise healthy people can have health problems long after initial infection.

Staying up to date with your COVID vaccine is the best way to protect yourself so you can safely participate in campus activities and gather with friends.

Updated vaccines are now available to help protect against Omicron.

Find free vaccines near you:

- Visit [vaccines.gov](https://www.vaccines.gov)
- Text **your ZIP code** to **438829**
- Call **1-800-232-0233**
