

# Get Your Updated COVID Vaccine

**An updated COVID vaccine boosts your protection against severe illness, hospitalization, and death from COVID.**

Get your updated COVID vaccine now if you're 18 or older, vaccinated, and your last dose was before September 2022.

People 65 and older can now get a second updated COVID vaccine beginning 4 months after their first. People with compromised immune systems can get a second updated COVID vaccine beginning 2 months after their first.

Parents and guardians of children under 18: Talk to your child's vaccine or health care provider about when they need their updated vaccine.

## For more information

For more information, including how to stay up to date with your COVID vaccine, scan the QR code or visit [cdc.gov/coronavirus](https://cdc.gov/coronavirus).
